

Five Hungry Ducklings

All animals eat different things. What do you think the following animals eat? Talk about this.

- a. buffalo *grain and herbs* b. lion *flesh of other animals* c. chicken - *grains*

There were five hungry ducklings,

Swimming on a lake.

'My word,' said their Mummy,

'What a long time you take.'

'Look, bottoms up, heads down.

Just copy what I do.

I have to fish for tasty food

And so must you.'

The five hungry ducklings

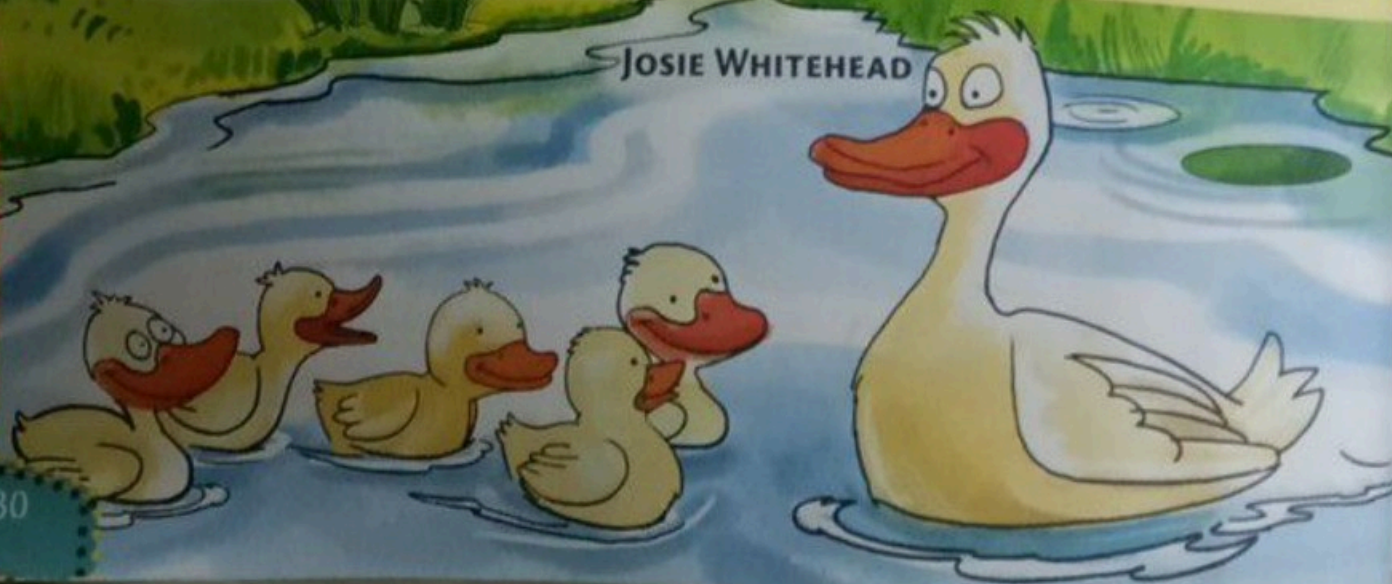

Quickly all then said:

'But if we charm those people,

They'll throw us bread instead.'

Teacher's note: It has been advised that ducks shouldn't be fed bread.
