

ACTIVITY – 8

Q-1. Estimate each of the following by rounding off to the nearest tens.

a. $45 + 56$

45 round off nearest $10 = 50$

56 round off nearest $10 = + \underline{60}$

Sum = 110

b. $635 + 425$

635 round off nearest $10 = 640$

425 round off nearest $10 = + \underline{430}$

Sum = 1070

c. $486 + 36$

486 round off nearest $10 = 490$

36 round off nearest $10 = + \underline{40}$

Sum = 530

Q-2. Estimate each of the following by rounding off to the nearest tens.

a. $67 - 18$

67 round off nearest $10 = 70$

18 round off nearest $10 = - \underline{20}$

Difference = 50

b. $356 - 215$

356 round off nearest $10 = 360$

215 round off nearest $10 = - 220$

Difference = -140

Q-3. Estimate the sum of 725 and 836 by rounding off to the nearest hundreds .

Sol : 725 round off to the nearest hundreds = 700

836 round off to the nearest hundreds = $+ \underline{800}$

Estimated sum = $\underline{1500}$

Q-4. Estimate the difference 956 and 481 by rounding off to the nearest hundreds .

Sol : 956 round off to the nearest hundreds = 1000

481 round off to the nearest hundreds = - 500

Difference = $\underline{\hspace{1cm}}$
500
