   a) Brush b) Magnifier c) Slide

3. The Rotate option is present in the image group on the _____ tab.

   a) View b) Home c) Insert

D. Answer the following questions:

Q 1. How many selection tools are present in MS Paint? Name them.

Ans. There are two selection tools present in MS Paint. These are – Free-form selection tool and Rectangular selection tool.

Q 2. What do you mean by zooming an image?

Ans. Zoom means to increase or decrease the view size of an object on the screen in any ratio.

Q 3. How can you skew an image in Paint?

Ans. Skew means to turn the picture sideways at an angle. To skew an image in Paint:

i) Select the drawing tool by using the Select tool.
ii) Select the Resize option in the Image group on Home tab.
iii) Specify the value of the Skew option in degrees for both horizontal and vertical, in the respective boxes. Click on ok.

Q 4. How can you enter text in MS Paint?

Ans. To add text in MS Paint:

i) Select any shape from the Shapes group on Home tab. For example, Cloud call out shape and draw it on the drawing area.
ii) Now, select the Text tool and then select any color.
iii) Click inside the shape. A dotted rectangle appears with cursor inside it. Now, type the text as desired.

Q E. Match the following:

Free- form selection tool	
Zoom 100 % tool	Select tool	
Rotate option
