

GRADATION SCALE

PENCIL SHADING

Shading is depicting tones of darkness on paper by using pencil with free hand. The tones of shading can vary from light to dark according to the pressure applied on the pencil. Observe the different shades and practice them in the space provided.

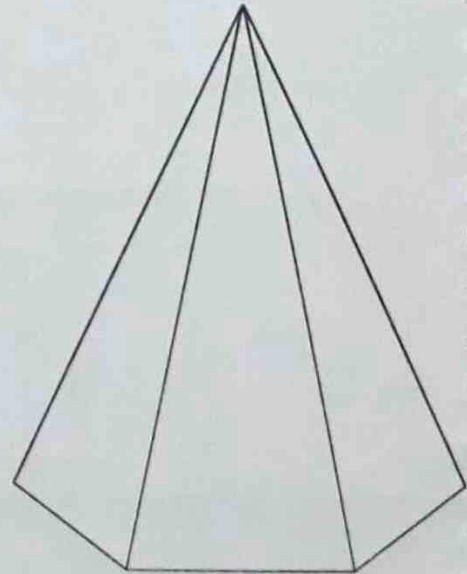

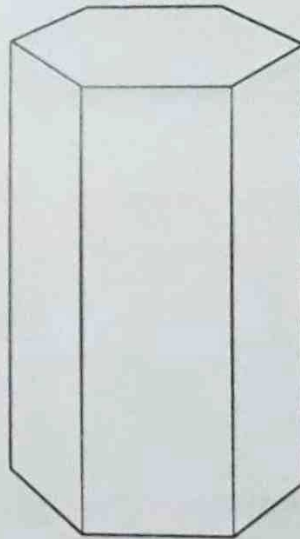

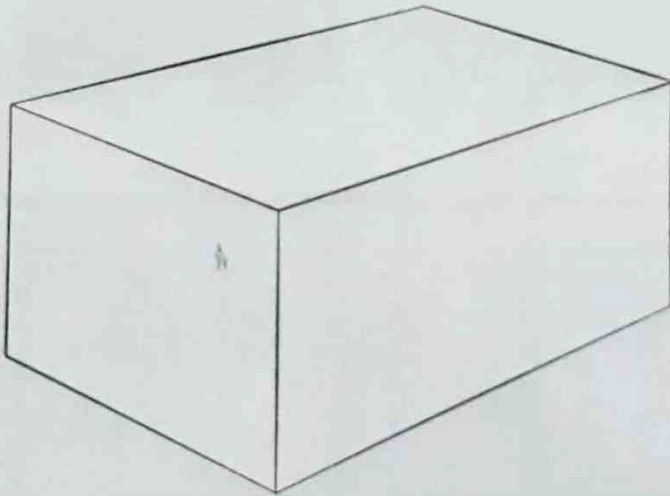

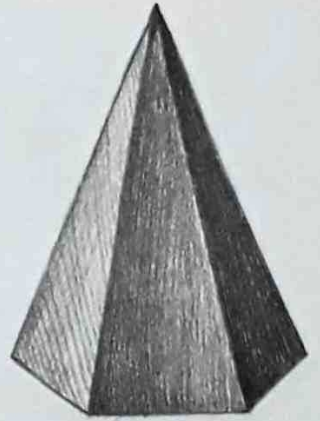

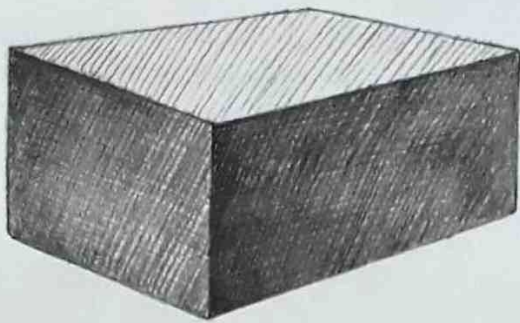

Practice

3D SHAPES

PENCIL SHADING

Use light and dark tones of pencil shading using 2B pencil to fill the shapes.

LANDSCAPE

PENCIL SHADING

Observe the dark and light tones of pencil shading in the landscape carefully. Now, use a 2B pencil to shade the given picture.
